

Zodiac Signs – Pisces, Mucha Edition 2017

Background

Pisces (♓) is the twelfth astrological sign in the Zodiac, originating from the Pisces constellation. Under the tropical zodiac the sun transits this area on average between February 19 and March 20.

Mucha was famous for his commercial posters, which had a wide audience, but he also worked in a variety of other media, including furniture, jewelry, and theatrical sets. His densely patterned posters epitomize the Art Nouveau interest in natural forms, decoration, and a rejection of the anonymity of mechanical production.
