Accessory	Luxurious boxes included with Art. 28140 and 28205		

Following the overall surge in popularity in skull designs and the huge success of the Skull No1 coin and its small gold equivalent, CIT proudly introduces three additional coin skull in 2017.

Headlining the new releases is undoubtedly the Big Skull. A special shape combined with CIT's smartminting© high relief technology produced an incredible, three dimensional relief on Skull No1 that becomes even more astounding on its hefty half-kilo big brother that ships in a luxurious collector's box and is limited to 555 pieces. A set of branded cotton gloves for handling this behemoth is included.

The direct successor of the 1oz Skull No1 is the gruff Pirate Skull, a derivative of the original with an equally impressive relief and antique finish. Lastly, the little Golden Skull also received a pirate treatment and now features cross bones behind the aged skull.
